WritingRules – Workshops and Session Rates

GoldStar Writing Help transforms the intimidating process of crafting compelling essays into an empowering journey of self-discovery.

Our signature WritingRules Workshops are something we're incredibly proud of—dynamic sessions where students collaborate, brainstorm ideas, and witness their voices emerge stronger with each draft. Every session combines proven writing techniques with encouragement, helping students to be confident in their unique voice, whether crafting college essays or tackling academic papers.

Book a writing workshop with one of our University of Florida writing professionals. Brainstorm, edit, and improve your writing. If you are working on writing an essay for your college application, consider also applying for the GoldStar College Bound Scholarship; details can be found in the resource library.
